¹ The Assumed Rate of 6.8%, approved by the ETF Board December 9, 2021, is first used for actuarial valuations effective December 31, 2021. Associated factor changes are first used for benefits effective January 1, 2022.

² The salary index is based on the National average wage indexing series provided by the Social Security Administration. The most recent salary index calculation is as of November 1, 2023 and is rounded to one decimal point.

³ Adjustments are determined by using the previous year's salary index. The monthly benefit adjustment under duty disability (Wis. Stat. § 40.65) is effective on January 1.

⁴ Adjustments are determined by using the previous year's salary index and truncating the result.

⁵ Effective April 1 of the following calendar year. Example: 2023 Core annuity adjustment of 3.6% and 2023 Variable annuity adjustment of 15.0% are effective April 1, 2024.
